March 13, 2020

Three (3) staff attended the Conference March 6, 7, and 8 in Vancouver where a confirmed case of COVID-19 was found. One (1) staff was not at the conference at the time a confirmed case of COVID-19 was in the building. The two staff will be self-monitoring for COVID-19 for 14 days and will not be in the office. They will self-isolate if required.

We have completed a risk assessment and determined the risk to our staff and clients is low. Below is the link to further information from the Vancouver Coastal Health Authority:
