## **ENLIGHTENED PERSPECTIVE – Instructions for life – Nice thoughts**

When they asked her to reveal her beauty secrets, Audrey Hepburn quoted these words which were written by Sam Levenson. They were later read at her funeral...

To have attractive lips, speak kind words.

To have a loving look, look for the good side of people.

To look skinny, share your food with the hungry.

To have beautiful hair, let a child cross it with his own fingers once a day.

To have a beautiful poise, walk knowing you are never alone,

because those who love and loved you accompany you.

People, even more than objects, need to be fixed, spoiled, awakened, wanted and saved:  
never give up on anyone.

Remember, if you ever need a hand, you will find them at the end of both your arms.

When you become old, you will discover that you have two hands, one to help yourself,  
the second to help others.

The beauty of a woman is not in the clothes she wears, in her face or in her way of fixing her hair.

The beauty of a woman is seen in her eyes, because that is the door open to her heart,  
the source of her love.

The beauty of a woman grows over the years....
